Rainbows Rockets

Our Goals: We are committed to ensure every child is safe, happy, and enjoying new fun experiences in a positive, welcoming and safe environment.

Our main objective is to create a fun yet stimulating environment where your children can continue to develop their social, physical, intellectual, and emotional skills.

We endeavour to create a loving and caring 'home from home' environment where children can relax and feel comfortable after their day at school. We cater for all age groups and needs. The afternoon routine revolves around the children, ensuring that all their needs are met, whether these are big or small.

We will ask the children at the start of each half term what they would like to do and this will form our child led planning.

The children have the option to go into 'the den' the smaller of our two rooms to relax and unwind or the 'Rockets' room where lots of activities are laid out. Both rooms are organised into different areas of interest and we will regularly update our rooms to reflect the children's favourite activities. From a dress up area to a dedicated games corner, there is something for everyone.

Children enjoy a nutritious snack and chat with their friends and staff about their day.

Our homework zone is simply laid out to provide a calm and relaxing environment with no unnecessary distractions. Homework is completed here (with one-to-one support where needed).

Our after-school team communicate with the children about their activities and interests and give genuine consideration to their feedback and suggestions.

Our aim is to create a space that children love to spend time in.

Staff have safeguarding and paediatric training and are Enhanced DBS checked.

Our policies and procedures are in the cloakroom and can be seen on request.

Thank you for your enquiry, if you would like your child to attend please return the registration document with a £10 registration fee which will be deducted from your first invoice.
